EMERALD
Surreal
EDGE

Emerald Edge is a progressive metal band based in the greater Duesseldorf/ Cologne area.

Emerald Edge arrives with five thoroughbred musicians who made a name for themselves not only in their hometown. Since the band has been formed, they proved their musicianship at numerous concerts and festivals.

Emerald Edge just released their second long-player „Surreal“, the follow-up album of the debut „By The Light Of The Dark Star“ which came out in 2013. Eight new 'surreal' songs prove again the band's truth and belief to step outside the genre and go on rising to new challenges.

Emerald Edge does not know musical limits. And thanks to the special sound of Alice Aschauer's violin or Martin Wendler's didgeridoo, their polished emerald edges will not only gleam but virtually start to radiate each time when you least expect it.

the unexpected, the inscrutable untold

passion, dynamic, fantasy

listen! watch!

an image made of sounds and words - sophisticated,fragile and even powerful

Emerald Edge - Progressive Metal
